Low demand

Stacked area chart showing the percentage of countries in different climate policy categories from 2025 to 2050. The categories are B2° (blue), CurPo (orange), Delay (green), Frag (red), LowD (purple), NDCs (brown), and NZ (pink). The chart shows a general increase in the percentage of countries in the B2° and CurPo categories over time, while the percentage in the NZ category decreases. The LowD category shows a significant increase starting around 2040, peaking around 2045, and then declining. The NDCs category shows a steady increase from 2025 to 2040, followed by a sharp decline. The Frag and Delay categories show relatively stable percentages throughout the period.

Nationally Determined Contribu
